Lenovo V17 IIL

Designed for users who need a larger screen but still want a mobile device that can be used around the office or even for occasional travel. The widescreen 17.3" anti-glare display enhances comfort and accuracy when working with documents, web content or media files, and enables small-group collaborations without connecting to an external monitor. The device also comes with optional WiFi 6 which can enable faster internet speeds with compatible routers.

BUSINESS DEVICES THAT ARE A CLASS APART

REASONS TO BUY

Users looking to boost performance can configure the device with responsive SSD storage, NVIDIA GeForce® graphics and the latest 10th Gen Intel Core™ processors. And with the 56Wh battery option, the device can last up to 9 hours.

Supports Smart Power On feature wherein a fingerprint reader is integrated with the power button enabling users to power on/wake up the device and login in at the same time.

Minimal preloaded applications mean maximum battery life and responsiveness for users, and faster deployment for IT admins.

The Lenovo V Series provides security, data protection and productivity features in an affordable package.
