

THINKVISION T32p

ENGINEERED FOR MODERN WORKFORCES

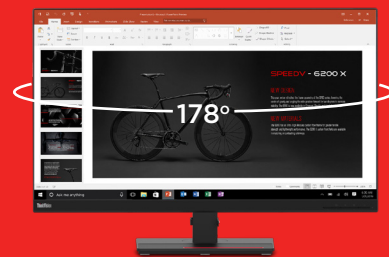

ENHANCED PRODUCTIVITY ON A WIDER DISPLAY

Unbox unbeatable visual delight and envision better on a 4K UHD resolution of ThinkVision T32p-20. The In-Plane Switching panel and ultra-thin bezels of this 31.5-inch monitor, along with sRGB color gamut, offer wider screen real estate for data-intensive work or designing. TÜV Rheinland Eye Comfort certification ensures eye strain and fatigue are reduced and you are at your productive best. Its ergonomic stand allows you to tilt and lift the monitor based on your convenience, while a phone holder and cable management minimize desk clutter. The one-cable solution coupled with Smart Power function on this USB-C Hub Monitor allows faster data transfer, intelligently detects overall power consumption, and dynamically manages the power delivery to each device.

Lenovo

FEATURES OF THINKVISION T32p-20

Unparalleled Visuals

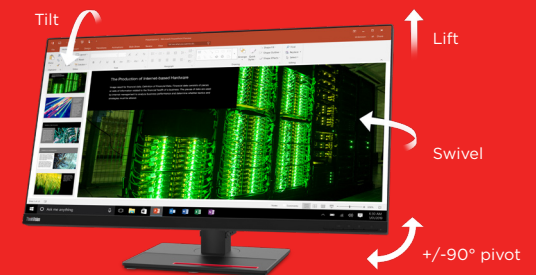

Get impeccably detailed visuals and 3840 x 2160 resolution on this 3-side NearEdgeless monitor. With four times more pixels than a conventional Full-HD, an IPS panel, and 178°/178° viewing angles, ardent professionals can accomplish tasks easily. See a more extensive color space with reduced eye strain, thanks to the 99% sRGB color gamut of this TÜV Rheinland Eye Comfort-certified monitor.

Uninterrupted Productivity

Designed with a host of connectivity options such as DisplayPort, HDMI 2.0, and USB 3.1 Gen1, the monitor offers uninterrupted connections and clear audio for meetings and presentations. The one-cable solution along with the Smart Power function of this USB-C Hub Monitor intuitively distributes power supply up to 75W*, and manages overall power consumption for high efficiency.

*Up to 75W power delivery to compatible devices by USB Type-C

Organized Workspace

Choose between VESA mount capability and an ergonomic stand to position your monitor the way you like and work comfortably. You can adjust the screen to fit your needs with its lift, tilt, swivel, and pivot functionality. A smaller base, with a phone holder and cable management, helps you to organize your desk space without any clutter.

*Listed as the maximum capacity of power delivery. The actual capacity of power delivery may vary depending upon devices connected or monitor configuration and may decline with downstream USB ports connected or higher brightness settings.

**When connecting one cable USB Type-C at 4K 60Hz, the USB downstream will be USB2.0 by default due to technical limitations. Users can still use USB 3.0 by selecting in OSD and as a result, the display will be adjusted to 4K 30Hz.

Depending on many factors such as the processing capability of peripheral devices, file attributes, and other factors related to system configuration and operating environments, the actual transfer rate using the various USB connectors on this device will vary and is typically slower than the data rates as defined by the respective USB specifications: - 5 Gbit/s for USB 3.1 Gen1; 10 Gbit/s for USB 3.1 Gen2 & 20 Gbit/s for USB 3.2.
