

BUSINESS DEVICES THAT ARE A CLASS APART

The Lenovo V Series provides security, data protection and productivity features in an affordable package.

Lenovo V17 G3 IAP

Smarter
technology
for all

Lenovo

Redesigned for optimum on-the-go productivity, this ThinkPad gives modern professionals real room to work. It has a 17.3" epic display supported by Intel UHD or Intel Iris Xe graphics – digital content creators or design architects will love the naturalistic visuals on a large panel. Users can work as long as they want without straining their eyes, thanks to its anti-glare and low blue light technologies. Connect other peripherals with a range of onboard ports, including USB-C and HDMI.

REASONS TO BUY

With audiovisual features like dual-array noise-canceling microphones with Dolby Audio, experience lifelike and disruption-free collaborations. Cover the camera with a privacy cover when not in use. Features like an optional fingerprint reader on the power button authenticate the user when not in use.

EPEAT Silver and ENERGY STAR make it a green device that helps reduce power consumption and conserve energy.

Minimal preloaded applications mean maximum battery life and responsiveness for users, and faster deployment for IT admins.
