

GIGABYTE M32U Media Kit

GIGABYTE M32U

Panel Spec

- ✓ 31.5" UHD with SS IPS
- ✓ 144Hz & 1ms MPRT
- ✓ **HDMI 2.1** & 90% DCI-P3
- ✓ FreeSync Premium Pro*

Features

- ✓ KVM
- ✓ OSD SideKick
- ✓ Aim Stabilizer Sync & Black Equalizer
- ✓ GameAssist, Auto-Update

Human Interface

- ✓ EyeSafe
- ✓ Flicker-Free
- ✓ Power Board Build-in
- ✓ Ergonomic Design & Mobile Device Fast Charging

KVM⁺

Super Speed IPS with 144Hz

Craving for high refresh rate but sacrifice for the picture quality? Why you only get to choose one?! The thing is you can actually have them both now! The Super speed IPS panel that M32U uses offering the advanced high speed of 144Hz, giving you the most fluid game feel without sacrificing viewing angles or color accuracy!

HDMI2.1. Perfect for Gaming

With the growing needs for transmission of higher quality video and audio, the latest HDMI technology is able to support numerous new and future standards. HDMI 2.1 is ideal for 4K console gaming at 120Hz (144Hz for PC gaming) and its features - VRR (Variable Refresh Rate) and ALLM (Auto Low Latency Mode) gaining gamers with more immersive experience without distractions.

	FHD	QHD	UHD
PS5	120Hz	-	120Hz
XBOX Series X	120Hz	120Hz	120Hz

Greater Bandwidth

Not only supporting DisplayPort High Bit Rate 3 (HBR3), the DSC (Display Stream Compression) technology makes it display detailed picture quality at a native 4K resolution with a 144 Hz refresh rate via one single DisplayPort 1.4.

1ms MPRT with Adaptive-Sync

GIGABYTE M32U is equipped with a 144Hz refresh rate which supports Adaptive-Sync technology, putting an end to choppy gameplay and broken frames and creates a fluid and artifact-free performance at any framerate. Blazing fast 1ms MPRT response time to fully eliminate image lag and tearing.

90% DCI-P3 with 10-bit Color

The super wide color gamut **90% DCI-P3/123% sRGB** display, and a 10-bit color (8-bit+FRC); contrast ratio 1000:1, allowing you to enjoy a fluent gaming experience with vibrant true colors. Moreover, it supports VESA DisplayHDR 400; HDR is gaining interest for a wide range of applications, including gaming, movie entertainment, and creation of multimedia content.

One For All

With GIGABYTE's exclusive KVM, you can freely control your devices by one set of keyboard and mouse. It's even cross-platform friendly, no matter what type of OS your systems is, we all support! Just imagine you can play your mobile game on a bigger screen and have your phone charged at the same time, how convenient and fantastic!

Devices with Type C ALT Mode

One set to control all your devices

Classic Tactical Features

NO MORE HIDDEN ENEMIES

Brightens up the dark parts in the picture for better visibility in dark areas.

NOT A THING CAN BE BLOCKED

The Dashboard shows you real-time hardware information and won't be blocked by any game.

AIM LIKE A PRO

Upgraded Aim Stabilizer is able to conduct the motion blur reduction and V-Sync technology at the same time!

ALL YOU NEED IS HERE

Customizable crosshair, counter and all other assistive features.

EASIEST WAY TO SET MONITOR

Allowing you to set the display options directly with keyboard and mouse.

6 Axis Color Control

With the help of Six Axis Control, it's able to control six colors (red, green, blue, cyan, magenta, and yellow) individually. It allows you to more accurately display the color gamut on the monitor.

HDR Mode

Now we offer not only HDR400 but also multiple modes to choose from, you can even create your settings!

HDR 400 MODE

GAME MODE

MOVIE MODE

Built-in Stereos with Clear Sound

An ideal setup for those who have a small desk or simply prefer not to use external speakers or headphones when listening to music, watching movies or even playing games. Saving you the trouble of having to find a separate speaker and offering descent-sounding experience.

Appearance & Functionality

EyeSafe

Certified by TÜV Rheinland and Eyesafe® association to meet the standard for color balance and blue light reduction

Flicker-Free

A more stable LED light source to allow gamers to play the game for a long time or watch the movie without causing eye strain and other injuries

Ergonomic Design

An exclusive stand that's ergonomically designed to offer an extensive range of height, tilt adjustments
